PROFILE

MPhil student in Computer Science and Engineering at HKUST VisLab, supervised by Prof. Huamin Qu. My research lies at the intersection of HCI and AI, with interests in human-AI interaction, intelligent interactive systems, and immersive and situated interfaces. I am particularly interested in how AI can enable adaptive human-AI interaction across physical and digital environments. Seeking PhD opportunities starting in September 2027.

EDUCATION

Hong Kong University of Science and Technology <i>MPhil in Computer Science and Engineering; CGA: 4.2/4.3</i>	Hong Kong 09/2025 – 08/2027 (expected)
Swiss Federal Institute of Technology Zurich (ETH Zurich) <i>Mobility Student in Department of Computer Science</i>	Zurich, Switzerland 09/2023 – 02/2024
Hong Kong University of Science and Technology <i>BSc in Data Science and Technology, minor in Business; First Class Honors; CGA: 3.804/4.3</i>	Hong Kong 09/2021 – 05/2025

PUBLICATIONS

- ReguLAR: Graph-Grounded Error Recognition and Assistance for Procedural Tasks in AR** [arXiv]
Yi-Lin Ye, Jindu Wang, Hiu Tung Wong, Shuchang Xu, Huamin Qu, and Wong Kam-Kwai
To appear in the Proceedings of the 39th Annual ACM Symposium on User Interface Software and Technology (UIST 2026).
 - Developed an intelligent AR assistance system combining structured task representations with multimodal vision-language reasoning to infer users' task states, recognize procedural errors, and provide situated recovery guidance.
- LandSAR: Visceralizing Landslide Data for Enhanced Situational Awareness in Immersive Analytics** [DOI]
Wong Kam-Kwai, Yi-Lin Ye, Wai Tong, Haobo Li, Kentaro Takahira, Aastha Bhatta, Sunil Poudyal, Charles Wang Wai Ng, Huamin Qu, and Leni Yang
2026 IEEE 19th Pacific Visualization Conference (PacificVis).

Manuscripts Under Review

- Situated Physical Analogies: Visceralizing Spatial Values by Anchoring Data to Everyday Objects and Spaces**
Second author; *Submitted to CHI 2027; under review.*
- OAIv: Orphaning-Aware Annotation Authoring for Immersive Video**
Third author; *Submitted to CHI 2027; under review.*
- InsightRAG: Aggregating Distributed Scholarly Judgments for Scientific Survey Generation**
Third author; *Submitted to ACL Rolling Review (August 2026); under review.*

RESEARCH EXPERIENCE

QEF VR Team <i>HKUST VisLab</i>	05/2026 – 08/2026
Developed an immersive English-learning system integrating LLM-powered assistance with VR interaction to provide context-aware, real-time support during interactive learning activities.	
Digital Twin <i>HKUST VisLab</i>	09/2025 – present
Developing an immersive VR digital-twin experience using interactive spatial representations to communicate typhoon impacts at the Tseung Kwan O waterfront to non-expert users.	
Towards Large-Scale Vision-Language Models in Medicine [arXiv] <i>Final Year Project</i>	06/2024 – 05/2025
Developed a multimodal retrieval-augmented generation framework for a generalist medical foundation model, supporting pathology and radiology visual question answering and radiology report generation; supervised by Hao Chen.	

TEACHING EXPERIENCE

COMP 6411D Data Visualization <i>Teaching Assistant, HKUST; Lecturer: Arpit Narechania</i>	Hong Kong 09/2026 – 12/2026
COMP 4462 Data Visualization <i>Teaching Assistant, HKUST; Lecturer: Arpit Narechania</i>	Hong Kong 02/2026 – 05/2026

ACTIVITIES

Hall Tutor Supported undergraduate residents and organized community activities.	Hong Kong 08/2025 – present
HKUST Student Ambassador Program Student Ambassador	Hong Kong 01/2024 – 05/2025
Peer Companions Peer Companion in Dean of Students' Office	Hong Kong 12/2022 – 05/2025

HONORS AND AWARDS

First Class Honors	HKUST, 2025
University's Scholarship Scheme for Continuing Undergraduate Students	HKUST, 2023/24, 2024/25
HKSAR Government Scholarship Fund - Reaching Out Award	HKSAR Government, 2023/24
Dean's List	HKUST, 2021/22 – 2024/25

SKILLS

Programming & Tools: Python / C++ / MATLAB / R / PyTorch / TensorFlow / Git / Tableau / Codex	
XR: Unity / Meta Quest 3 / Apple Vision Pro	Languages: English / Mandarin / Cantonese
